CONDITIONS AND LIMITATIONS
INDUSTRIAL WASTE DISPOSAL PERMIT NO. 8106

ELECTRONIC CHROME, INC. (I-903-1H)
9132 DICE ROAD
SANTA FE SPRINGS, CALIFORNIA

1. Wastes shall be discharged only at the site covered by this permit and only on property owned or controlled by the discharger. The discharge of these wastes to the ground surface, storm drain, watercourse, or any tributary to surface waters is prohibited.
2. Neither the disposal nor any treatment of wastes shall cause a condition of pollution or nuisance.
3. In the event that spillage inadvertently occurs, immediate steps shall be taken to confine materials to the permittee's property. The material shall be cleaned up immediately and disposed of in a legal manner. In addition, within one hour of the spill occurrence, the County Engineer shall be notified by telephone at (213) 974-7257 during normal working hours or, before 8 a.m., after 5 p.m. and on Saturdays, Sundays or holidays, (213) 974-1234.
4. For wastes hauled from the site, the permittee shall certify the source, quantity, and point of legal disposal by signing California Liquid Waste Haulers Records. A legal point of disposal is defined as one for which waste discharge requirements have been prescribed by a California Regional Water Quality Control Board and which is in full compliance therewith. A copy of the California Liquid Waste Hauler Record form is attached.
5. A copy of this permit shall be maintained where it will be available at all times to operating personnel.
6. Representatives of interested governmental agencies concerned with the disposal of industrial wastes shall be permitted access at any reasonable time to take samples and inspect operations.
7. In the event of any change of ownership, name, or control of the waste disposal facility, the discharger shall notify the County Engineer of such change and shall notify the succeeding owner or operator of the existence of this permit by letter, a copy of which shall be forwarded to the County Engineer.
8. The County Engineer shall be notified and his written approval secured before making any additions or modifications which may affect the quantity, quality, method, or disposal point of waste materials.

9. The County Engineer may modify this permit by addition, revision, or elimination of conditions and limitations as may be necessary to accomplish the purpose of ordinances and laws covering disposal of waste materials.
10. Violation of any of the conditions of this permit shall be cause for suspension or revocation of this permit.
11. Records and reports submitted to the County Engineer and the California Regional Water Quality Control Board are public documents and shall be available for inspection during business hours at each respective office.
12. The permittee shall perform self-monitoring of its waste discharges as described in the attached Self-Monitoring and Reporting Program.

1-74

COUNTY OF LOS ANGELES
DEPARTMENT OF COUNTY ENGINEER
PROJECT PLANNING AND POLLUTION CONTROL DIVISION

SELF-MONITORING AND REPORTING PROGRAM

1. ELECTRONIC CHROME CO., INC. shall file a report in duplicate with the County Engineer for each calendar quarter beginning with the second quarter of 1977.

Monitoring reports shall be submitted by the dates in the following schedule:

<u>Reporting Period</u>	<u>Report Due</u>
January - March	April 15
April - June	July 15
July - September	October 15
October - December	January 15

2. The report shall contain the following information:
- Quantity of liquid industrial waste (in gallons) produced during each month of the reporting period.
 - A list of the quantity of liquid wastes hauled to a legal point of disposal including the name and address of the hauler. Forwarding a signed copy of the "California Liquid Waste Haulers Record" certificate shall be considered as meeting this requirement.
3. In the event that no discharges were made during the period or that no wastes were hauled, a statement to that effect shall be submitted.
4. An annual report shall be submitted in duplicate to the County Engineer by January 30 of each year containing a summary of the monitoring data obtained during the previous year. Data shall be presented in tabular form. In addition, the record of compliance with permit conditions and a statement of corrective actions taken in each instance of noncompliance shall be submitted.
5. Each report must bear the following completed declaration:
- "I declare under penalty of perjury that the foregoing is true and correct."

Executed on the _____ day of _____ at _____.
